### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, Buell et al. (5,931,827), fails to disclose a plurality of elastic members spaced apart from each other and extending in the waist-encircling direction in the first and second elasticized zones, and being attached in an extended condition between the waist elastic members and the leg openings. Buell teaches first and second elasticized zones comprising a stretchable laminate and does not teach the use of a plurality of elastic members. It would not be obvious to substitute a plurality of elastic members that are spaced longitudinally apart from one another for the elastic laminate of Buell, since doing so would destroy the intent of Buell to have a central elasticized laminate zone having elastic properties that differ from the side elasticized laminate zones. The prior art of record therefore fails to disclose or fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Lynne Anderson whose telephone number is (571) 272-4932. The examiner can normally be reached on Monday through Friday.
